

MACHINE SHOP

WATSON-TOWERS LTD

A COMPREHENSIVE SOLUTION TO ALL OF YOUR MACHINING REQUIREMENTS

The Watson-Towers' machine shop is fully equipped with both CNC and conventional machine tools - all facilitating the manufacture and fabrication of a wide variety of components to meet the needs of a wide range of applications and industries; from heavy duty marine and construction through to complex oil and gas components.

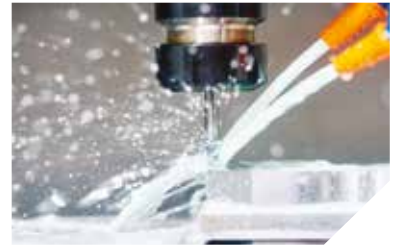

CNC turning

CNC turning with Dalian CKE6180Z.
Max turning dia 800mm swing x 2500 length including steady and 4 jaw capability.

Mazak Slant-turn 30 ATC

CNC turning with Mazak Slant-turn 30.
Max dia 300mm x 1500mm length.
Complete with live milling/drilling capability.

CNC milling

CNC milling with Dugard eagle 1300 .
Max component size 1500 x 1000.

Horizontal boring

Horizontal boring with numerical control. Max size X2000 Y1700.

Universal Milling

Conventional milling including angled head capability up to 10,000mm length

Welding

Full coded welding capability with WPS for a range of stainless and carbon steels.
